- Easy App Download

Standard Bluetooth Reader Mounted on Side of Keypad

For greater ease & peace of mind, add this sturdy Bluetooth reader to any Stor-Guard access control system. It will eliminate the need for your customers to enter a code into a keypad.

Come rain or shine, this unit can handle the challenge, with its waterproof enclosure it can mount to any of our keypad housings.

The Bluetooth reader allows your customers the convenience of access without even rolling down a window. It is also more secure as customers do not share phones like they do codes and cards.

### Specifications:

|                 |                                       |
