

SG-EVO4 4-Keypad Controller

Features:

- Modular Design - Simply add as many controllers as required
- Up to 4 Keypads per controller
- Compatible with all Stor-Guard keypads
- 20,000 User Capacity Per Controller
- Unlimited Site Codes
- Program and Manage with AccessPlus Software
- Flexible Communication Options (USB and TCP/IP adapter available)
- Uses standard power outlet

Modular
Add as many controllers as required.

Commercial Application
Up to 20,000 users and unlimited codes.

Flexible
Connect to software using USB or with port-forwarding online.

Our modular controller is the foundation of our access control system. It works with all Stor-Guard Keypads, Stor-Guard Bluetooth device and AccessPlus software.

The controller communicates with both the keypads and the software. In the event that the controller loses communication with the software, it stores, and will use the stored info, until communication is reestablished. A customer will be granted access only if they are currently eligible.

Our access control consists of three required components. These are software, controller, and keypad.

Specifications:

Electrical Box Size	13.5 x 13.5 x 3.5"
Input Voltage	12VDC
Input Current	110mA
Operating Temp.	32°F to 150°F
